

Project Initialization and Planning Phase

Date 15 March 2024
Team ID xxxxxx
Project Name FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks 3 Marks

Define Problem Statements (Customer Problem Statement Template):
Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person who wants to improve fitness and wellness.	Create a personalized workout plan for my fitness goal.	I may not know which exercises, intensity, or schedule are suitable for me.	Fitness plans need to consider my goal, basic details, and preferred intensity.	Unsure about where to start and how to follow a structured routine.
PS-2	A user following an existing workout plan.	Adjust my workout plan when my needs or preferences change.	A fixed plan may not match my feedback or changing requirements.	The plan should be updated based on my feedback.	Frustrated when the plan does not fit my needs.
PS-3	A fitness user trying to support workouts with better nutrition and recovery.	Get a concise nutrition or recovery tip related to my fitness goal.	It can be difficult to identify practical advice that complements my workout.	The advice should be relevant to the selected fitness goal.	Less confident about how to support my fitness routine.
