

Project Demo Planning

Date 29 September 2026

Team ID _____

Project Name FitBuddy – AI Fitness Plan Generator using Gemini Models

Maximum Marks 1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the FitBuddy project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Overview & Architecture	Introduce FitBuddy, its purpose, and the FastAPI, Gemini, Jinja2, and SQLite architecture.	2 mins	Member 1
2	Home Page & User Input	Demonstrate name, user ID, age, weight, fitness goal, and workout frequency fields.	2 mins	Member 2
3	Workout Plan Generation	Demonstrate personalized 7-day workout plan generation using Gemini.	3 mins	Member 3
4	Nutrition Tip & Feedback	Show the nutrition/recovery tip and explain how user feedback updates the workout plan.	2 mins	Member 4
5	User Storage & Admin Dashboard	Demonstrate SQLite storage, user details, and original/updated plans.	3 mins	Member 5
6	Deployment & API Testing	Explain local FastAPI deployment and demonstrate the /tokens endpoint.	2 mins	Member 6

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce FitBuddy and explain its purpose as an AI fitness plan generator.
2	Solution Overview	Explain the FastAPI, Gemini, Jinja2, and SQLite architecture and the user-input flow.
3	Live Feature Demonstration	Demonstrate user input, 7-day workout generation, nutrition/recovery tip, feedback updates.
4	Q&A Session	Answer questions about the application features, AI generation, database, deployment, and API.
